CHERISH

Sunón

Craftsmanship Comfort Quality

Taking a nap at noon is a good habit to maintain high efficiency at work, however, most sofas currently available in the market are not suitable for sleeping. Aiming to solve this problem, Sunon has developed Cherish, a sitting & lying dual-purpose sofa, to meet the need of daily reception and noon breaks in office and to provide more possibilities.

Craftsmanship
Relaxation
Comfort

Concise, but not Simple

Modern, as the soft fine leather and the hard metal legs are mixed and matched; high-quality, as its main frame is built with superior pine wood; eye-catching, as it's embedded with stainless steel decorative bars; user-friendly, as the headrest is detachable and optional according to individual needs.

Cherish Your Energy , Relieve Your Fatigue

We know that in this intense working environment, what you really need is a cozy place for taking a good nap at noon breaks. However, modern offices are very limited in space, and it's never a good idea to simply put a bed there. No worries, Cherish is always there for you. Cherish Sofa, for sitting, for lying, and for a nice rest.

130°, Art of Noon Break

With the widened 30cm armrests as pillows, the ergonomically-designed 130° curve perfectly fitting human cervical spine, and highly-resilient moulded foam of exactly the right level of softness, Cherish will take you into a sweet sweet dreamland in no time.

ELITE

Work in your office, and win the case thousands of miles away!

Multiple choice

Various Material, Multiple Choice

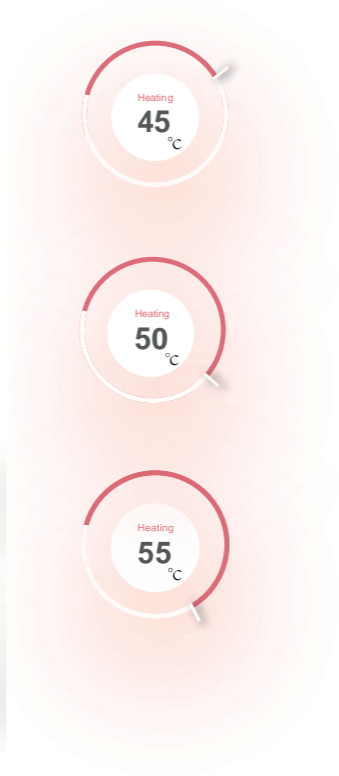

Concise and elegant, it is an artwork of straight lines and right angles, as well as blocks and planes. Using linen as surface material, it adds a stylish air to the environment.

Craftsmanship

Sit or Lie Down as You Want

The seat depth could be easily switched between 2 levels. 53cm, for receiving guests, for treating friends; 105cm, for taking a break, for having a nap. Different seat depths, different life modes.

Charming and Warming

Never neglect the harmful effect coldness might bring to your back and lumbar. Cherish, embedded with a far-infrared heating device, will serve as your personal health guard in cold days. The new carbon-fiber heating wire could achieve a rapid heating within 3 minutes, and the high temperature prevention system will automatically cut off power after 30 minutes.
